County of San Luis Obispo

TO: Board of Supervisors

FROM: Jeff Hamm, Health Agency Director
Karen Baylor, Ph.D., LMFT, Behavioral Health Administrator

DATE: 8/28/2012

SUBJECT: Request to approve renewal contracts (Clerk's File) for Fiscal Year 2012-13 in the collective amount not to exceed \$74,172 with San Luis Coastal Unified School District (SLCUSD) and Coast Unified School District (CUSD) to provide drug and alcohol prevention counseling services.

RECOMMENDATION

It is recommended that the Board approve and direct Chairperson to sign the renewal contracts for FY 2012-13 in the collective amount not to exceed \$74,172 with San Luis Coastal Unified School District (SLCUSD) and Coast Unified School District (CUSD) to provide drug and alcohol prevention counseling services.

DISCUSSION

For the past nineteen years, Drug and Alcohol Services (DAS) has secured contracts with school districts in the County to provide drug and alcohol prevention and intervention school site counseling services. The school-site contracts for FY 2012-13 include providing student support, drug and alcohol prevention and intervention counseling, and prevention activity development at various elementary (K-6), middle and high schools.

As part of the contracts, Drug and Alcohol Specialists will work directly with at-risk youth in the schools conducting risk evaluations, individual and group prevention counseling, and will also act as on-campus liaisons with school staff for issues involving student substance abuse. DAS school site specialists often refer students who require more intensive counseling to additional services at one of the DAS clinics located in San Luis Obispo, Atascadero, or Grover Beach. The continuum of services is further enhanced when school site specialists refer students to DAS prevention staff responsible for Friday Night Live and the Mental Health Services Act Prevention and Early Intervention (PEI) Program counselors.

OTHER AGENCY INVOLVEMENT/IMPACT

County Counsel has approved these contracts as to form and legal effect.

FINANCIAL CONSIDERATIONS

The two FY 2012-13 renewal contracts amount to a total of \$74,172. The FY 2012-13 final budget assumed \$74,172 for the equivalent contracts, and was based on FY 2011-12 actual contract amounts. Typically, contract negotiations do not begin until early summer, when school districts are confident about funding, and are historically not finalized until early fall.

As illustrated in the table below, Coast Unified School District will be offering traditional student support counseling as well as prevention services offered in a bilingual/bicultural manner. Funding for Coast USD bilingual/bicultural support will come from the District as well as a Preventative Health Grant they were awarded for FY 2012-13 in the amount of \$25,000. There was no change in contract and funding for San Luis Coastal Unified School Districts.

District	FY 2012-12 Budgeted	FY 2012-13 Contract	FTE	Fully Offset By District Contract?
----------	------------------------	------------------------	-----	------------------------------------

	Amount	Amount		
Coast USD (DAS)	\$10,980	\$10,980	.12 FTE	Yes
Coast USD (Bilingual)	\$38,304	\$38,304	.44 FTE	Yes – These funds are provided by two sources; \$25,000 from Preventative Health Grant and \$13,304 from the District
San Luis Coastal USD	\$24,888	\$24,888	.26 FTE	Yes
Total	\$74,172	\$74,172		

RESULTS

School based prevention counseling services differ from district to district and school to school. The outcome measures provided are typical of the measures used in each district. The results provided are based on services provided to approximately 675 students.

Based on the pre- and post- referral surveys completed by participating students, many positive results were achieved during the 2011-12 school year. A few distinct examples include:

- Participating Students earning mostly A's and B's on report cards increased about 20% while those earning D's and F's decreased 19%;
- 20% of participating students reported improved communication and relationships with parents;
- 31% of participating students reported improved ability to cope with stress, depression and anxiety better;
- Regular use of marijuana and alcohol decreased by up to 17% while non-use of either increased by up to 19% for participating students;
- School attendance for participating students increased across the board while 12% of participants achieved zero absences.

During the FY 2011-12 program year, 97% (target 97%) of students participating in DAS school site counseling showed a reduction in risk factors (low levels of parent/youth communication, truant behavior, problem peer group) and an increase in protective factors (improved academic achievement, classroom behavior, playground/social behavior and attendance), as measured by pre-and-post referral surveys administered by school and/or DAS personnel. The target for FY 2012-12 remains at 97%.

Research by Hawkins/Catalano, Substance Abuse and Mental Health Services Administration (SAMHSA) and the National Institute on Drug Abuse demonstrates that decreases in standardized risk factors or increases in standardized protective factors results in reduced substance abuse. Protective factors appear to buffer exposure to risk factors. Core to all of DAS's school based interventions is the goal of strengthening or increasing protective factors while striving to reduce risk factors. The Drug and Alcohol Services Division of the Behavioral Health Department seeks to provide students the appropriate services by matching counseling services to students' needs. The above mentioned contracts provide the necessary resources to assure that the appropriate services are available for students in need of counseling services. By providing the most appropriate services to the clients, positive treatment outcomes are supported as well as strides toward the achievement of the wider County vision of a healthy and safe community.
